

11B NMR analysis

 Takahiro Nomoto

Updated date: Jun 30, 2020

 An abbreviated version of this protocol was published in Science Advances in Jan 2020

Poly(vinyl alcohol) boosting therapeutic potential of p-boronophenylalanine in neutron capture therapy by modulating metabolism

DOI: 10.1126/sciadv.aaz1722

Detailed protocol

Thank you very much for reading our work.

Regarding to the protocol of ^{11}B NMR analysis, we did not use any special technique other than the method described in the article.

How to cite:(Readers should cite both the Bio-protocol preprint and the original research article where this protocol was used)
